Professional Summary

UI Designer with 2+ years of experience designing responsive, accessible, and pixel-perfect web interfaces for SaaS and enterprise products. Skilled in translating wireframes and Figma prototypes into clean frontend code using HTML5, CSS3, Tailwind CSS, JavaScript, and React.js. Strong focus on User Experience (UX), cross-browser compatibility, accessibility (WCAG), and performance optimization. Proven collaborator in Agile/Scrum environments delivering high-quality User Interface (UI) solutions.

Technical Skills

Frontend Technologies HTML5, CSS3, Sass, JavaScript, jQuery
UI/UX Tools Figma, Wireframing, Prototyping, Responsive Design, Design Systems
Libraries & Frameworks React.js, Bootstrap, Tailwind CSS, Material UI

Experience

Bestpeers Infosystem

UI Designer

January 2025 – Present

- Designed responsive, scalable User Interface (UI) for SaaS applications improving usability and User Experience (UX) across all devices.
- Built reusable UI components using Tailwind CSS and Material-UI ensuring cross-browser compatibility and pixel-perfect output.
- Optimized CSS animations and transitions for performance; delivered design QA in Agile/Scrum sprints.

CloudWapp Technologies

UI Designer

August 2024 – December 2024

- Designed responsive, cross-browser compatible websites using HTML, CSS, and JavaScript, enhancing UI consistency across client projects.
- Managed live deployments ensuring seamless UI functionality and performance optimization across all environments.

InfoSparkles IT Solution

UI Designer

May 2023 – May 2024

- Developed accessible, responsive web interfaces using React.js, Bootstrap, jQuery, and CSS improving user engagement and usability.
- Integrated frontend components with REST APIs in close collaboration with backend teams, reducing turnaround time.

Live Projects

Tourysta – Travel Booking Platform | <https://tourysta.com>

- Designed a full-featured travel marketplace with intuitive booking flows and order tracking, improving user engagement and conversion.
- Implemented accessible, mobile-first UI with performance-optimized components for a seamless traveler experience.

Qbit42 – AI Assistant Interface | <https://qbit42.ai>

- Built an AI chat UI with conversational flows and dynamic input panels, delivering full cross-browser compatibility and responsiveness.
- Applied WCAG accessibility standards and performance optimization ensuring fast load times across mobile and desktop.

FRS – Face Recognition Attendance System | <https://frs.bestpeers.com/en>

- Designed UI for a computer-vision attendance system with real-time face detection, reducing manual attendance effort significantly.
- Created data-driven dashboard screens for attendance reports and live monitoring with a clean, accessible layout.

AIM – Armory Inventory Management | <https://armoryinventorymanagement.com/super-admin/login>

- Built a role-based admin dashboard with data tables and multi-level access control using React.js and Bootstrap, improving operational efficiency.

Seeya – Fitness Coach Platform | <https://dev.seeyafit.co.il/administrator/login>

- Designed Training Plan and Coach Meetings modules with user-friendly UI, enhancing workflow usability for fitness professionals.

Education

Master of Computer Application (MCA)

Acropolis Institute of Technology and Research — 84.55%

April 2020 – May 2022

Bachelor of Computer Science (B.Sc)

Barkatullah University, Bhopal — 62.73%

April 2017 – March 2020

Certifications & Training

- Web Designing Certification – Infoviaa Technology
- UI/UX Design Fundamentals & Figma Prototyping Certification
- 5-Day Soft Skills Workshop – Organized by RGPV Bhopal
